Public Department, Bangalore

Enhanced rates for clearing the duct in the work of water supply to Chintamani town

Sir,

A Adverting to Government Order No L 5151-4/41 72-42-9 dated 24th November 1942 sanctioning the payment to the Contractor for the above work at the estimated rates instead of at the accepted rates, I have the honour to inform that the Sanitary Engineer in his letter No 785 dated 31st January 1945 states that the work is completed and that the contractor has put forward a claim for cleaning the masonry duct at 0-4-0 a rft which would work out at 2 as per sq ft The Sanitary Engineer states that the item is included in the estimate and hence the contractor's contention that he should be separately paid for the items of work is not tenable But he recommends that the rate of one anna per sq ft provided in the estimate for removing covering slabs and revetting the slabs after cleaning the duct may be increased to ₹ 0-1-4 as the present rate is unworkable The increase in rate for the item of work will involve an excess of Rs 242/- as the quantity of work turned out is 11,600 only This can be met out of the savings of about Rs 600/- expected under this head in the sanctioned estimate and will involve no excess on the whole A copy of Sanitary Engineer's letter is enclosed for the information of Government

I request you to be so good as to obtain and convey approval of Government to the enhancement from Rs 0-1-0 to 0-1-4 per sq ft for the item in the estimate relating to removing covering slabs and resetting them after cleaning the duct

I have the honour to be,
Sir,
Your most obedient servant,
G Sankaranarayana
DIRECTOR OF PUBLIC HEALTH

Lett r No 785 dated 31st J nu ry 1945 f om the S nit ry Engineer, Bure u of S nit ry Engineering B ngalore, forwarding to the Director of Public Health in Mysore, Bangalore

---

Re nn nced r tes for cle n ng the duct in the work of w ter supply to Chintam ni Town

---

I h ve the honour to state th t for the ork of improv ment of water supply to Chintam ni town, the tender of M C Venkatesa h of Kol r at e tim ted r tes as accepted by Government in their Order No L 5151-4/Wl 7a-4a-9 dated 24th November 1944 The ork is co pleted and the final bill is received nd is under audit In this connection, I would like to state th t the contractor h s put forward a claim on account cle ning the masonry duct at 0-4-0 sft which would work out to 2 annas per sq ft According to the terms of the tender and the e tim te cleaning the duct is included in the item of removing and resetting slabs after cleaning the duct for which a rate of 0-1-0 per sq ft is provided The contention of the contractor th t the rate of cleaning the duct should be paid for separ t ly at 4 nn s sft is not therefore tenable I have inspected the work The earthwork cutting at various pl ces for cle ning the duct is 10' to 12' deep at which depth, covering sl bs and he vy slush have be n removed I am of opinion that the r te of 0-1-0 per sq ft provided in the estim te for removing cov ring sl bs nd resetting the slabs after cle ning the duct, working in n rrow and deep trenches is quite unworkable

Under the bove circumst nces, I recommend th t a rate of 0-1-4 sq ft m y be paid for this work in view of the rise in prices of labour nd m terials since the sanctioned rate represents only 33 1/3 p r cent over e tim ted r te The quantity of work turned out under this item is 11,000/- nd t 4 pies extra, i 244/- will become p y ble This amount will be found from the savings of s 600/- nearly under this head in the sanctioned estim te There will be no excess over the s nctioned estimate as a whole E rly approval is r quested to settle the final claims

---
